

DRiBOND® ST300 Roller Screed Tool

DRiBOND® Application Made Faster and Better

With the DRiBOND® Concrete Overlay Solutions LLC ST300 Screed Tool, the leveling of concrete overlays has never been easier.

This roller screed allows for easier and quicker spreading out of the DRiBOND® dry mudset over a preexisting concrete service.

DRiBOND® ST300 Roller Screed Tool Features

- Made of High-Grade Durable Materials
- No More Knee or Back Pains!
- Easy Leveling of DRiBOND® Concrete Overlays
- Faster Application and Perfect Results
- Can be Quickly Changed to a 1/4" Thickness or 3/8" by Changing Out the Roller Depth Guides

Helps save on DRiBOND® use by providing an exact depth required for most installations!
